

## Diversity Catalyst Team

A Diversity Catalyst Team is a task force made up of a representative group from every sector of the organization. This team encompasses members of all group identities across the range of differences that include but are not limited to gender, race, sexual orientation, spiritual beliefs, abilities, class, rank, tenure, and age. The team is supported by the organization to work together to design the vision and the implementation strategies that create the climate for change. The team works in partnership with the administrative leadership to actualize the strategies, and serves as a resource to the system on diversity and multicultural organizational development.

### Meet the CFAES Diversity Catalyst Team

Kathy Lechman  
Leader,  
Diversity Development  
and Diversity  
Coordinator

Candace Pollock
